EXAMPLE:

How Wingo Shield Works on a \$1,000 Account

Let's say you start trading with \$1,000 in a Wingo Markets account or a Social Trading account. If you face losses, Wingo Shield will reimburse you up to \$300 for your account, and you'll have 90 days to use it.

Bonus Conversion and Withdrawal Terms:

- For every \$100 bonus, you must complete 10 lots of trading.
- Each trade must remain open for at least 30 seconds. Trades closed before this time will not count toward the required volume.
- Once you reach the required trading volume to convert the credit into balance, if your account is at a loss, the loss amount will be deducted from the credit, and the remaining amount will be added to your balance.

With Wingo, nothing can hold you back!
